**PATENT**

3. We are aware that Krishnamurthy claims priority to a provisional application filed on September 4, 2003.

4. In accordance with CFR § 1.131, as inventors of the subject matter of the pending claims, and without conceding the propriety of the rejections of the pending claims, we hereby declare that we invented the subject matter of the pending claims prior to the reference date of September 4, 2003. We further hereby declare that we worked diligently from a date prior to September 4, 2003 to the date of constructive reduction to practice, October 24, 2003, the filing date of the 750 application, in order to prepare the 750 application and patent the invention.

5. Prior to September 4, 2003, an internal Microsoft Confidential Specification dated June 3, 2003, entitled "Functional Spec for XML Index on XML Blob Data Type Column in SQL Server Yukon" was prepared describing the subject matter of the 750 application. In support of the instant declaration, a redacted copy of the Microsoft Confidential Specification is attached hereto. We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information or belief are believed to be true; and further, that these statements were made with the knowledge that willful false statements and the like are punishable by fine or by imprisonment, or both, under § 1001 of Title 18 of the United States Code, and that such willful statements may jeopardize the validity of the application, any patent issuing thereupon, or any patent to which this verified statement is directed.
